

Negotiated Net Amount (NNA)/Drug Medi-Cal (DMC) Contract Amendments & Data Quality Standards

Expectations and Requirements for the
California Outcomes Measurement System
(CalOMS)

Rachelle Repace

Contract Amendments

New requirements have been included in the Negotiated Net Amount (NNA) and Drug Medi-Cal (DMC) contracts pertaining to CalOMS.

FY 2005-2006 Requirements

- Participate in CalOMS meetings and trainings.
- Begin CalOMS treatment data collection no later than January 1, 2006.
- County/direct contract providers' systems must be tested and certified by ADP by March 1, 2006.
- Submit CalOMS treatment data for January, 2006 to ADP by March 15, 2006.

Data Submission Business Rules

- CalOMS treatment data must be submitted to ADP electronically within 45 days of the end of the report month.
- Compliance with this treatment data submission deadline is mandated in the NNA/DMC contract.

Treatment Data Quality Standards

- The NNA/DMC contracts include a requirement for counties/direct providers to comply with data quality standards.
- ADP is developing data quality standards for CalOMS treatment data.

Data Quality Standards for Treatment Data: Timeliness

- Admissions, discharges, annual updates, unmatched admissions, deletions, and resubmissions/corrections are due 45 days from the end of the calendar month in which the transaction occurred.
- ADP will monitor the number of submissions from prior report months.

Data Quality Standards for Treatment Data: Completeness

- All treatment providers must be accounted for in the monthly batch files for all transaction types.
- If a provider does not have transactions to report in a given report month, a provider no activity report for that provider must be included in the monthly batch file.
- ADP will monitor for consistency in the number of transaction types reported by counties/direct providers.

Data Quality Standards for Treatment Data: Accuracy

- Limited number of errors.
- Records failing edit must be corrected in a timely manner.
- ADP is developing metrics for acceptable error rates.
- No discharge records are to be submitted without a matching admission record.

ADP Needs Data Quality Standards to:

- Ensure data received is accurate/valid.
- Produce accurate reports.
- Apply for federal funding.
- Report accurate outcome information to the Legislature.
- Document information linked to improvement of treatment services.
- Provide client and funding information for specific programs.

Counties/Providers Need Data Quality Standards to:

- Reduce workload associated with data collection and submission.
- Mitigate impact on funding allocations/ensure consistent federal/state funding levels.
- Generate outcome information that can be used to improve service delivery.
- Apply for grants/funding.
